Re: 1994 Annual Report of Mining Related Projects - DOGM File No. M/003/007 and E/003/026

Dear Ms. Burns:

Please find attached the 1994 Annual Reports of Mining Related Projects, referenced by DOGM File No. M/003/007 and E/003/026. In summary, none of the existing disturbed lands were reclaimed during 1994, because our exploration plans for 1995 could possibly redisturb that same acreage. Once the results of our 1995 exploration efforts are better understood, we'll determine what current disturbed acreage can be reclaimed during 1995.

If you have any questions or require further information please contact me at our offices listed below. I'm sorry about the delay in getting this information to your office, but everyone here thought someone else had already sent it. Of course you have heard all these excuses before, and that is why you purposely call to remind those that have a lapse of memory (no matter what their excuse). In any event, thank you for the friendly reminder and I'm sincerely sorry for any inconvenience this delay may have caused you.

Sincerely,

E. M. (Buzz) Gerick

Vice President of Operations
